

Guide for automated lanes (with iris/fingerprint capturing)

01

Insert passport with
biodata page face down
on the reader

02

Remove passport when
prompted

03

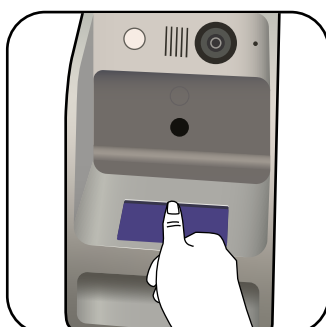

Enter lane when the
flappers open and
remove cap, spectacles
and mask

04

Look between blue
arrows for iris scanning

05

If prompted, place right
thumb on the scanner

06

Exit lane when the
flappers open
