

New Clearance Concept

All foreign visitors arriving from Changi Airport can now self-enrol their biometrics at the automated lanes during arrival immigration clearance. Once enrolled, they will be able to use the automated lanes on subsequent visits to Singapore.

Steps to note:

Submit the SG Arrival Card through MyICA mobile app or ICA website, up to 3 days prior to arrival. Submission is free.

Proceed to the automated lanes and scan your passport for verification.

Present your biometrics (iris, facial and fingerprint, if prompted).

You will receive an electronic visit pass (e-Pass) via email upon successful clearance.
